I have read the Protocols and I agree to follow the Protocols. By entering this garden, I agree that I will:

1) Abide by the COVID 19 protocols of Canmore Community Gardening Society by:
   • not visiting the garden if I am exhibiting symptoms of COVID-19 (fever, cough, runny nose, difficulty breathing) or have been exposed to someone showing symptoms
   • hand washing and tool sanitizing
   • visiting the garden in accordance with the garden schedule
   • complying with the restriction of no more than 15 gardeners at a time

Please see attached protocols for detailed instructions. I understand and agree that:

2) If I fail to comply with the above conditions, on first instance, I will be asked to leave the garden. On second instance I will be banned from the garden for the season.

3) Accepting this agreement absolves Canmore Community Gardening Society from any liability, financial or otherwise, which may result from negligence or non-compliance with the COVID 19 guidelines.

2020 Canmore Community Garden Covid 19 Protocols

For the safety and enjoyment of all members, and to adhere to Alberta Health Services guidelines, we’ve adopted the following protocols for the 2020 season. We will continue to monitor the situation and make changes as necessary.

1. The garden must only be accessed by registered members. The garden must remain locked when not occupied and will remain closed to the public.

2. Anyone who is exhibiting symptoms of COVID-19 (fever, cough, runny nose, difficulty breathing) or has been exposed to someone showing symptoms of the virus must stay at home for 14 days and may not enter the garden.

3. Upon entering the garden, every person must wash their hands with soap and water at the hand washing station, for at least 20 seconds. Avoid touching eyes, nose or mouth, especially with unwashed hands. Cough or sneeze into your sleeve and not your hands. Please follow all current public health guidelines.

4. Everyone in the garden must maintain physical distancing of 6 feet/2 metres at all times (unless gardening with members of the same household). Seniors, or people with underlying health conditions, may prefer to visit the garden during quiet times (i.e., between 7 and 10 am).
5. A garden calendar will be posted on the website to inform all members when work parties are scheduled. Team leaders will post planned work parties with their team on this schedule. Communal gardeners and plot gardeners should check the schedule or consult their team leaders for available times for visiting the garden. No more than 15 people may be in the garden at any time. If you arrive and there are 15 people on site, please stay outside the garden, socially distanced from others, or come back another time.

6. Only 1 person may occupy the tool shed or the greenhouse at a time. If waiting to enter the tool shed or greenhouse, please provide distance for person inside to exit.

7. The Community Garden does not provide gloves; gardeners should bring their own gloves. Gardeners should also bring their own tools, if possible.

8. Cleaning equipment for tools and hands (soap and water) will be provided at the two hand washing stations. All handles of tools, including buckets and watering cans, faucets and latches (i.e., greenhouse, tool shed and gates) must be cleaned before and after use. A diluted bleach sanitizing solution will also be available.

9. Hoses should be stretched out on side of path (not rolled) to expose them to the sun, and the first 4 feet should be disinfected before and after use along with the nozzle and water tap.
